

SHASHIKANTH HOSUR RAMEGOWDA

Senior Full-Stack Developer | AI Integration | React & Node.js Expert

(+370) 60945446 • shashikanth033@gmail.com • linkedin.com/in/shashikanth-hr • https://shashikant-hr.me/

• Saulėtekio al. 25, Vilnius, 10225, Lithuania

Summary

Senior Full-Stack Software Engineer with 10+ years of experience designing, building, and delivering scalable web applications across healthcare, energy, banking, and insurance domains. Expertise in React, Node.js, TypeScript, GraphQL, REST APIs, micro-frontends, microservices architecture, Docker, Kubernetes, and CI/CD automation.

Proven track record of delivering mission-critical platforms, including clinical trial management systems, real-time energy management solutions, and investor advisory portals, with a focus on performance, reliability, security, and scalability. Experienced in developing cloud-native applications, modernizing legacy systems, and collaborating with cross-functional teams to drive successful product delivery.

Currently pursuing advanced studies in AI Engineering at VILNIUS TECH, applying AI-assisted development practices and exploring the integration of AI solutions into modern software platforms.

Holder of a valid Lithuanian Temporary Residence Permit and fully authorized to work in Lithuania

Experience

Wipro (formerly Harman Connected Services Corp. India Pvt. Ltd)

Bengaluru, India

Principal Engineer

10/2024 - 08/2026

Industry: Healthcare IT | Contract Type: Permanent, Full-time

- Architected a full-stack clinical trial platform using React, Redux Toolkit, Node.js, Express JS, Redux Saga, MongoDB, enhancing data accuracy, validation, and efficiency.
- Led the implementation of a Micro-Frontend architecture, enabling cross-team parallel development and deployment, accelerating delivery cycles.
- Mentored software engineers through code reviews, design discussions, and best practices, significantly improving team productivity and code quality.
- Implemented AI tools like Cursor, Claude, and Copilot, reducing development effort by 30% and boosting productivity.
- Cooperated closely with DevOps and platform engineering teams throughout CI/CD and release processes, supporting deployments across GitLab, Azure, Docker, and Kubernetes environments.

IBM India Private Limited

Bengaluru, India

Senior System Analyst

09/2021 - 10/2024

Industry: Energy & Utilities | Contract type: Permanent, Full-time

- Enhanced the Open Balancing Platform using React, Redux Toolkit, Node.js, GraphQL, Redux Thunk, TypeScript, Material UI, Webpack, and REST APIs, enabling real-time energy demand-supply balancing across energy grids.
- Built the IFRS 17 Data Platform using React, Redux, Node.js, TypeScript, Kafka, KSQL, Microservices, and REST APIs, delivering real-time data streaming and scalable insurance data processing.
- Delivered the Investor Advisory Portal using React, Redux Toolkit, Node.js, Express.js, REST APIs, Material UI, and MySQL, providing portfolio management and interactive dashboards for a banking client.
- Mentored 5 developers through code reviews, technical design, sprint planning, and Agile ceremonies using JIRA and Scrum practices.
- Deployed, troubleshooted, and validated Azure environments using GitHub, Docker, Kubernetes, and Terraform. Coordinated with DevOps and platform engineering teams.

Sonata Software Limited

Bengaluru, India

Senior System Analyst

01/2019 - 09/2021

Industry: Retail | Contract type: Permanent, Full-time

- Managed full-stack development of the MFL Booking e-commerce platform using React, Redux, Node.js, Express JS, JavaScript, HTML5, Redis, CSS3, Webpack, and REST APIs, Elastic search enabling real-time vendor inventory and purchase order management.
- Improved order processing speed through React UI enhancements, Node.js monolithic code optimization, and API performance tuning.
- Supervised end-to-end delivery for two enterprise clients, collaborating with stakeholders on requirements, change requests, UAT, and Agile-based feature delivery.
- Expanded automated smoke testing and Cooperated with DevOps teams on GitHub-based CI/CD deployment processes, reducing post-deployment defects and improving application stability and release quality.

Experience

Cryptograph Technologies Pvt Ltd

Bengaluru, India

Senior Software Developer

06/2018 - 01/2019

Industry: Enterprise Technology | Contract type: Permanent, Full-time

- Developed and enhanced the Vendor Inquiry Tool using CodeIgniter, PHP, MySQL, and JavaScript, improving vendor data accessibility, operational efficiency, and user experience.
- Refactored and modernized application components using CodeIgniter, PHP, MySQL, HTML5, CSS3, and jQuery, reducing technical debt, improving maintainability, and accelerating feature delivery.
- Collaborated with cross-functional teams to design, develop, deploy, and support scalable enterprise applications, leveraging IBM Cloud for reliable application hosting and deployment.

Theorem (India) Private Limited

Bengaluru, India

Software Engineer

08/2016 - 06/2018

Industry: Digital Marketing | Contract type: Permanent, Full-time

- Developed the PayPal APAC Lifecycle Campaign Management platform using Laravel, PHP, MySQL, and Core PHP, enabling non-technical teams to create, manage, schedule, and automate customer engagement campaigns.
- Built responsive front-end components, backend services, RESTful APIs, and automated workflows using cron jobs for campaign scheduling, email processing, reporting, and data management.
- Collaborated with PayPal APAC stakeholders, business analysts, designers, and QA teams to deliver features in Agile Scrum environments with two-week sprint cycles.

Fortunesoft IT Innovations Pvt Ltd

Bengaluru, India

Software Engineer

11/2014 - 06/2016

Industry: Complaint resolution platform | Contract type: Permanent, Full-time

- Contributed to the development and enhancement of Scam Book using CodeIgniter, PHP, MySQL, JavaScript, jQuery, Bootstrap, Bitbucket, and AWS, helping reduce fraudulent activity by 25% and increase user report submissions by 30%.
- Developed and maintained scalable application features while collaborating with cross-functional teams to improve platform functionality, performance, and user engagement.
- Participated in source code management using Bitbucket and supported application deployment and maintenance on AWS, ensuring reliable and scalable hosting.

Education

Visvesvaraya Technological University (VTU)

Karnataka, India

Bachelor of Engineering in Computer Science

06/2009 - 06/2013

- Level in EQF: 6

Skills

Frontend: JavaScript (ES6), TypeScript, React, Redux Toolkit, Redux Saga, HTML5, CSS3, jQuery, Material UI, Bootstrap, Semantic UI, WebSocket.io

Backend: Node.js, Express.js, PHP, MySQL, MongoDB, Laravel, CodeIgniter, GraphQL, REST APIs, KSQL DB, KAFKA

AI-Assisted Development: GitHub Copilot, Claude, Cursor

Tools & DevOps: JIRA, Zoho, Git, GitHub, GitLab, Bit Bucket, Azure, Docker, Kubernetes, VS Code, Eclipse, Datadog, Splunk

Methodologies: Agile, Scrum, Sprint planning, Code reviews, Mentoring
